ŽIVIMO U VREMENU KADA SE DRAMATIČNO UVEĆAVA POTREBA ZA POUZDANIM INFORMACIJAMA. ODSUDNO PITANJE JE: DA LI POSEĐUJEMO PRAVU INFORMACIJU, U PRAVO VREME? FINANSIJSKA INFORMACIJA JE DANAS ČARICA MEDU INFORMACIJAMA. NAŠA MISIJA JE UPRAVO OVDE: SLUŽITI VERIFIKOVANJU FINANSIJSKIH INFORMACIJA.

PRIVATIZACIJSKI KONSALTING

Upravljanje privatizacijskim zahvatima podrazumeva kompleksna znanja i nameće ogromne informacione zahteve. Vrednovanje biznisa, restrukturisanje, transferi svojine, pozicioniranje promena, usmeravanje, merenje efekata u transakcijama predmet su naših usluga. Naše iskustvo u ovoj oblasti je ogromno, velikom broju preduzeća pomogli smo u najznačajnijim – svojinskim obrtima.

FINANSIJSKI KONSALTING

"Nerv stvari je novac!"
Poruka potiče od starih Rimljana, i ukazuje šta je centralna misao finansiste. Nema nerva – ne vredi stvar, jer je bez suštine. Suštinsko ekonomsko mišljenje je finansijsko, a ono je povezujuća nit svih ekonomskih procenjivanja. Finansijsko konsultanstvo je svojim rezultatima od presudnog značaja, u istom smislu u kom su finansijski kriteriji odlučujući u svim ekonomskim razmišljanjima.

Poreski konsalting

Poreska mudrost podrazumeva temeljno poznavanje zameštenih poreskih obaveza i iznalaženje rešenja kojima se zadovoljava poreski zahtev i minimizira odliv vrednosti po osnovu poreza. Optimizovati finansijske odlive, znači racionalno koristiti finansijski resurs koji je uvek redak.

RAČUNOVODSTVENI KONSALTING

Ekonomija bez računa je nezamisliva. Sačiniti valjan obračun znači sistematski registrovati sve ekonomske događaje, vrednovati ih, sistematizovati, obračunati i o njima sačiniti izveštaje – veoma je kompleksan posao.

Klijentima pružamo usluge u svim fazama: projektovanje, funkcionisanje, kontrola rezultata, unapređenje računovodstva.

KONSALTING SVE ZNAČAJNIJI

Savremeni svet ubrzava kompleksnost u svim sferama i u svim odnosima. To je posledica kako ubranih prodora misli u razne aspekte univerzuma. Upravljanje kompleksnošću podrazumeva kako raspolaganje pouzdanim informacijama o objektu upravljanja tako i efektan mehanizam upravljačkog delovanja.

Angažovanje konsultanta je posao pridobijanja saveznika u složenim ispitivanjima svake poslovne mogućnosti.

**Treba
vam
REVIZOR?**

Prva stvar zdravog organizovanja je uspostavljanje efikasnih računovodstvenih sistema, ali je oko nezavisnog revizora neizbežni saveznik u proveru finansijskih informacija. Proveri pa veruj! Tam čiju služi posao revizora.

NAŠA DOSTIGNUĆA

Pomogli smo menadžmentu stotina preduzeća u stratejskim poduhvatima koji su uspešno izvedeni. Naši koncepti, sistemi, procene i verifikacije finansijskih informacija uključiv brojne predloge pokazali su se vrednim, jer su donosili željene uvide i bili potpora za značajne odluke.

FINANSTIČNO

WE ARE LIVING IN TIMES WHEREIN THERE IS A PERMANENT NEED FOR RELIABLE INFORMATION. THEREFORE, THE CRUCIAL QUESTION IS: DO WE HAVE AN APPROPRIATE INFORMATION AT THE RIGHT TIME? FINANCIAL INFORMATION IS NOWADAYS THE CROWN INFORMATION. ACCORDINGLY, OUR MISSION IS JUST TO VERIFY FINANCIAL INFORMATION

CONSULTING FOR PRIVATIZATION

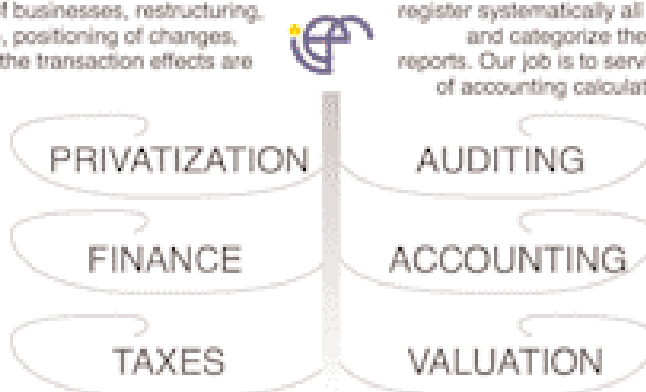

The management of the privatization operations requires complex know-how and high quality information. Evaluation of businesses, restructuring, transfer of the ownership, positioning of changes, directing and measuring the transaction effects are the core of our service.

FINANCIAL CONSULTING

"The nerve of the matter is money!" The slogan originates from old Latin and it points to the central idea of financial experts. No nerve – no point, since there is no contents. Business attitude is in essence financial attitude and it represents the common framework to all business evaluations. Financial consulting in developing market environment is gaining its importance in influencing management to the same measure as the financial criteria are becoming crucial in any business thinking and decision making.

CONSULTING IS GAINING IMPORTANCE

Modern world is witnessing further complication of its relations in all aspects of life. This is the consequence of the general dynamism requiring ever more intensive breakthrough of thinking in various aspects of human existence. The successful management of life requires the availability of reliable information about the object of management, as well as the very efficient system of management. Consulting is becoming the constructive factor of any serious business undertaking. This trend is becoming ever more notable.

CONSULTING FOR ACCOUNTING

It is not possible to imagine any business without accounts. To make a good calculation means to register systematically all business events, evaluate and categorize them and then make relevant reports. Our job is to service our clients in all stages of accounting calculation: designing the system, control of system reliability and its produced results as well as the advancement of the accounting system.

CONSULTING FOR TAXATION

Even the most capable businessman cannot avoid two things: the first is death, meaning the termination of his life; the second is the tax to be paid on various basis. The difference of the two is that death comes only once, while taxes are following one another causing the river of the financial outflows. Tax wisdom requires the sophisticated knowledge of intricate tax obligations and finding the solution which will satisfy tax obligation and minimize the outflow on the tax basis. That's where our consulting role appears.

**You
need
an AUDITOR?**

The auditor examines in detail complete structure of all business transactions, internal rules of the company, as well as its behavior. The result of the auditor's examination is the production of the valid financial information and hence the credibility which can be assigned to the statements stipulated in accounting reports.

OUR ACHIEVEMENT

We serviced managements of hundreds of organizations involved in different activities with concepts, systems, estimates, verified financial information and suggestions for numerous strategically significant decisions

FINANCETIC
