

WE ARE ALWAYS AT THE HUB OF ACTIVITIES!

The Sava Center is the largest congress, cultural and business center in Serbia and one of the largest event venues in Europe.

The inauguration of the Sava Center for the Conference on Security and Cooperation in Europe in 1977, following an absolute record in the construction of a facility of this type (the whole project was completed in less than a year), made Belgrade the proud owner of a unique multifunctional center that very few European cities could boast of at the time. With the building of the Sava Center's big congress and concert hall, Belgrade made the first serious effort in developing the congress industry and organizing major artistic events. The founder of the Sava Center Public Enterprise is the City of Belgrade.

Owing to its extraordinary spatial and technical facilities and highly professional staff capable of responding to every challenge of conference organizing, the Sava Center has established itself as the conference venue of choice both in Serbia and abroad.

Our clients and visitors can also benefit from a broad range of additional services, such as printing, IT, catering, professional security teams and parking space - all of which make the Sava Center a multifunctional and unique facility.

Over 8 000 national and international events and conferences held at the Sava Center so far were attended by more than 1 600 000 participants. Moreover, the input of its expertise and professional staff was invaluable for the start-up of a number of new congress centers in other countries and for organising a number of conferences and events all around the globe.

EBRD Annual Meeting 2005 was the one of the most important international events that Sava Center hosted.

The Sava Center has 15 conference halls which can seat between 20 and 4 000 people. All conference halls and rooms have state-of-the-art technical equipment to suit the needs of even the most demanding clients.

Exhibition space covering an area of 3,300 sq.m. is ideal for commercial presentations, poster displays, cocktails and mini fairs.

In terms of available capacity, technical equipment and professional experience, the Sava Center is the leader of the congress industry in the region.

The Sava Center is affiliated to the following professional associations:

- ICCA (International Congress and Convention Association)
- AIPC (The International Association of Congress Centres)
